

EMPIRE WIND

About Empire Wind

The New York Bight, the coastal area between Long Island and the New Jersey Coast, has some of the best offshore wind resources in the entire world. Our turbines will capture these strong ocean winds and convert them to clean, renewable electricity.

Empire Wind is partnering with New York State to contribute to the State's 9 GW offshore wind goal by 2035.

EMPIRE WIND

 **~80,000**
Acres of Coverage

 **~15-30**
Miles South of Long Island

 **Up to 147**
Wind Turbines

 **2.1 GW**
Renewable Energy

Homes Powered

Our Priorities

INVESTING IN COMMUNITIES

We are dedicating millions of dollars to local development through social investments based on community needs.

ENVIRONMENTAL PROTECTION

We support regional environmental monitoring and research to support the development of an environmentally responsible offshore wind industry.

WORKFORCE DEVELOPMENT

We are committed to local hiring and working with local unions through all stages of the project.

FUNDING INNOVATION

We aim to propel innovation for the future of the offshore wind industry.
